Test 1 Conventions
CS425 - Software Engineering
Monday, November 7, 2016

1. There will be 35 points total for the test.

    a. There will be short answer questions about SWE Principles and the RUP steps from the Vision Document through Use Case Analysis.

    b. You will be given a feature and you will be asked to write the Use Case Description for the feature.

    c. There may be some simple Sequence Diagram or VOPC diagram questions.

2. You can ask for clarification on a question, but do not ask me to evaluate your answer during the test.

3. Bring a pencil, eraser, and a well-rested, well-nourished, coherent, alert, brain

4. We follow DE test rules:
    a. No translation devices
    b. No cell phones (calls, messages, time, etc.)
    c. Once you have seen the exam you cannot leave the room until you hand it in.
    d. You will be assigned a seat when you arrive for the test.

e. No Cheating – You cannot request help or give help to your neighbors. Cheating results in a zero for the test.
f. The test must be turned in by 12:00 noon.
